

**NOTE:** When not worn, this mask folds down flat showing 3 pleats. If you want your artwork visible when mask is folded, please follow the "safe area for imprint on pleats" shown above. When worn, this mask opens up to double in size and the entire imprint area is then visible. Please use the "full bleed imprint area" shown above for placement of artwork in this manner.

**Disclaimer:** Face Masks are individually hand sewn so there are slight variations in size from mask to mask. Due to the intricacies of the Dye Sublimation process, which is also achieved by hand, it is not possible to perfectly center mask imprints. None of the foregoing are considered defects.
