Please note: Slight shifting of logo/text cannot be avoided. As each product is manufactured and logged individually, up to 3/16" movement in logo alignment may occur. Products are intended for individual use and cannot be compared one to another. CMYK (digitally printed colors) can only approximate PMS colors. There may be a dramatic difference between a PMS Color requested and the CMYK (digital color) printed on the #5120 cell phone wallet which cannot be considered a defect. As stitching only extends to top of pocket, slight peeling may occur in time due to glue weakening, however this cannot be avoided and does not impact product use.
