Please note: Slight shifting of logo/text cannot be avoided. As each product is manufactured and logoed individually, up to 3/16" movement in logo alignment may occur. Products are intended for individual use and cannot be compared one to another. In 4-color process printing, exact color match cannot be achieved. There may be a dramatic difference between the PMS Color noted, screen color shown and printed color. None of these can be considered a defect. Due to the wide variety of designs & thickness on individual phone cases, some cell phone cases may restrict the charging cables ability to connect securely to the phone. This is not considered a cable defect and the case may need to be removed to secure cable connections.
