Please note: Microfiber cloths are available with a smooth or serrated (jagged) edge. Serrated edge is supplied unless noted otherwise. The **dye-sublimation printing process uses** a computer printer to generate a heat transfer to transfer the image onto the fabric. Dye-sublimation printing machines use CMYO (Cyan Magenta Yellow Overcoating) colors, which differs from the more recognized CMYK colors in that the black is eliminated in favour of a clear overcoating. As a result, PMS inks cannot be matched exactly. They are only a reference point and an approximation. Factory will do it's best to match but cannot guarantee an exact color match. 0108
