Hazardous Products (Power Banks) Shipping: Hazardous Products shipping within the continental U.S. generally ship ground at regular published rates. Hazardous materials shipping internationally, to Alaska, Hawaii and Puerto Rico automatically require the hazardous materials documentation fee in addition to all other applicable shipping related cost. If expedited shipping is requested/required the order must ship Federal Express, and by law, the hazardous materials documentation a \$50.00 charge per each box must be added as required by law. Visit our website General Information under "Hazardous Products (Power Banks) Shipping" for specific and updated details.

Important Information: Variations in print substrates/materials make it impossible to exactly duplicate PMS colors on Innovation Line products. Color variation cannot be considered a defect due to ink, lighting, material or any other variation. PMS color matching is not possible for any imprint method, including screen print, pad print, Photolmage® full color direct, full color label, transfer and sublimation. PMS is only a reference point and an approximation. Laser engraving appears on actual item as tone on tone (as the laser engraving uses the laser to burn through the surface), on clear acrylic it appears white frost, on a proof laser engraving is most often shown in gray color. Imprint will shift slightly when printed or lasered. Each product is manufactured and printed individually, so 3/16" movement in logo alignment may result and cannot be considered a defect in printing. Note on proofs: E-Proofs are for logo placement and size approval only. The colors shown on e-proofs will not be accurately represented on monitors. Therefore, e-proofs cannot be an exact color representation and factory is not responsible for ANY variation. 0109
