Please Note: Masks fit faces differently according to each individual facial structure. Innovation Line makes no claims about exact fit as each mask varies in size just as each individual facial structure varies. If facial fit is critical, the buyer assumes all responsibility for confirming fit requirements prior to order placement. Mask Sales are final and returns not accepted & discounts will not be issued.

This face cover is for source control use only. This face cover should not be used: (1) in any surgical setting or to provide liquid barrier protection; (2) in a clinical setting where the infection risk level through inhalation exposure is high; (3) for particulate filtration; or (4) in high risk aerosol generating procedures. The product has not been FDA cleared or approved, it has been authorized by the FDA under an EUA for use as source control by the general public during the COVID-19 pandemic. Source control means preventing the transmission of infection through a person's respiratory secretions which are produced when speaking, coughing, or sneezing. Face masks, including cloth face coverings, help with source control by covering the wearer's mouth and nose. This product is authorized only for the duration of the EUA during the COVID-19 outbreak, under section 564(b)(1) of the Act, 21 U.S.C. §360bbb-3(b)(1) unless the authorization is terminated or revoked sooner. If you experience any issues with this product, please contact us at info@innovation-line.com.

Important Information: Variations in print substrates/materials make it impossible to exactly duplicate PMS colors on Innovation Line products. Color variation cannot be considered a defect due to ink, lighting, material or any other variation. PMS color matching is not possible for any imprint method, including screen print, pad print, Photoimage® full color direct, full color label, transfer and sublimation. PMS is only a reference point and an approximation. Each product is manufactured and printed individually, so 3/16" movement in logo alignment may result and cannot be considered a defect in printing. Note on proofs: E Proofs are for logo placement and size approval only. The colors shown on e-proofs will not be accurately represented on monitors. Therefore, e-proofs cannot be an exact color representation and factory is not responsible for ANY variation.

Important Information: Proofs provided are for logo placement and size approval only. The colors shown on e-proofs may not be accurately represented on your computer monitor (All metallic inks will NOT show up as metallic on screen) and PMS colors as printed in the Pantone Color Book are only a reference point. Therefore, e-proofs are not an exact color representation. Variations in print substrates/materials make it impossible to exactly duplicate PMS colors on Innovation Line products. Color variation cannot be considered a defect due to ink, lighting, and material variations. Innovation Line is not responsible for any color variation. In screen printing pad printing, Sublimation or transfer process exact color matches cannot be achieved. Regarding color matching, dye-sublimation printing uses a computer printer to generate a heat transfer to transfer the image onto fabric. Dye-sublimation printers use CMYK (Cyan Magenta Yellow Overcoating) colors, which differs from the more recognized CMYK colors in that the black is eliminated in favor of a clear overcoating. As a result, PMS inks cannot be matched exactly. They are only a reference point and an approximation. 1215
