Please note: The dye-sublimation printing process uses a computer printer to generate a heat transfer to transfer the image onto the fabric. As a result, PMS inks cannot be matched exactly. They are only a reference point and an approximation. Factory will do it's best to match but cannot guarantee an exact color match. Small shifting of imprint cannot be avoided when printing. As each product is manufactured and printed individually, up to 3/16" movement in logo alignment may occur. Towels are intended for individual use and cannot be compared. For red towel only, due to towel color dyeing process, for white ink imprints only, the red dye may bleed slightly and produce a pink hue, which cannot be avoided and is not considered a defect.
