Disclaimer: Puzzle pieces are not mosaic/irregular. Each puzzle piece is uniform. Slight curling and buckling cannot be avoided on all puzzles and is not a defect. If this occurs simply flatten the pieces back into shape during assembly. Once assembled puzzle may not lay completely flat this is a result of the decoration process which cannot be avoided and not a defect. If artwork does not feature a busy design or repetitive elements, puzzle assembly may be more challenging. Dark color and solid color backgrounds are not recommended. We recommend selecting images with varied details or non repeating patterns, as these provide more visual clues and make assembly easier.
