

Innovation-Line Policy Statement re: Uyghur Human Rights Violations

Dated: October 1, 2020

Innovation-Line abhors the forced labor and other human rights abuses suffered by the Uyghur population in China. Accordingly, we will not knowingly offer any product that has been produced by Uyghur labor or which contains components or raw materials produced by Uyghur labor. Since the majority of the Uyghur population in China resides in the Xinjiang region, for purposes of this policy, Innovation Line will assume that any product manufactured or assembled in Xinjiang, or which contains raw materials sourced from this region, was produced with Uyghur labor.
