Small shifting of imprint cannot be avoided when printing. As each product is manufactured and printed individually, up to 3/16" movement in logo alignment may occur. Sunglasses are intended for individual use and cannot be compared. In our best efforts to ensure greater customer satisfaction, we try avoid, when possible, the use of warning labels that can send unfavorable marketing messages to consumers. We go through great efforts to source our products from reliable vendors that supply products that will meet Cal Prop 65 requirements without the application of Prop 65 warning labels that can alarm end users and consumers. However, some items cannot be reformulated to use materials that contain a listed chemical, so in such cases, we have no choice but to apply a Prop 65 warning label on the product to meet the regulation's warning requirements.
