

SPECTACULAR SOCKS FROM HEEL TO TOE

CUSTOM PRINTED SOCKS SUMMER SALE!

#SOCK10 - "WYE"

Dye Sublimated Crew (Athletic) Socks (Pair)

Get creative and have fun with our ultra-comfortable full color, full bleed, dye sublimated dress and crew socks. Features reinforced black toe and heel for a higher quality and more professional appearance. Crew socks are slightly thicker with a slightly ribbed surface on the leg and mid-foot areas for more support.

Disclaimer: Machine Wash Cold. Do Not Bleach or Tumble Dry (Line Dry). Do Not Iron or Dry Clean. Some Shrinkage is considered normal after washing. With flatbed dye-sublimation sock printing, only one side of a sock is printed at a time. Each sock runs through the sublimation machinery twice to be printed on both sides (the front and back). The printing on the edges of socks overlap slightly resulting in a fine imprint line running the length of each sock (this fine line is more visible with lighter colored imprints). We advise keeping logos ½" away from sock edges to avoid logos being cut off. Additionally, small creases in socks may occur during printing which will appear as small white spaces. These conditions are unavoidable and are not considered defects. Please note all socks are printed in their original manufactured state not stretching. As the sock stretches when worn the logo will distort and color will lighten up. The amount of distortion and color change depends on the amount of stretching and is not considered a defect. It is not uncommon in some cases for print to become illegible and the color to show white lines proportionally as stretching increases however this is not considered a defect. Credits or returns not accepted.

Material Color: Material color may vary from shipment to shipment and dye lot to dye lot. The physical color of an object depends on how it absorbs and scatters light. No electronic device can truly capture actual color and in most cases the way each person experiences color is entirely subjective. Innovation makes no claims regarding color and if material color is critical to your customer, samples must be ordered in advance. Credits will not be made nor returns accepted for issues regarding material colors. 0703
