Not two stress relievers are exactly alike. Due to the nature of the material and since each is hand made and hand printed, variations will occur. Opacity of imprint is difficult to control and some imprints may be lighter and more see through than others. Imprints can appear uneven or broken due to surface variations inherent in the material. We can print up to 2 colors per position but tight registration is not guaranteed. Exact centering of imprint positions is also not guaranteed. We will do our best to minimize these limitations.
